EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/12/06 has been entered.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Roberts on April 14, 2006.

The application has been amended as follows:

In claim 2, line 1, the phrase "with the surface of the" has been deleted and replaced with – about the perimeter of the --; and in line 2, the phrase "beyond the plurality of grooves and ridges" has been deleted;

Claim 13 has been deleted; and

In claim 14, line 1, the numeral "13" has been deleted and replaced with – 1 --.

3. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest a shim comprising a plurality of grooves and ridges that is breakable along a groove wherein a rim extends about and above the tops of the grooves and ridges, in combination with all of the other limitations of claim 1.

Concerning the cited prior art, the combination of Mellen and Bellows suggests a wedge with grooves surrounded by an elevated ridge, however there is no reason or suggestion in the prior art to make the wedge breakable or to form the wedge from cellulose fibers. Regarding Siems et al and Earhart et al disclose shims made with grooves and ridges, however, it would not have been obvious to one of ordinary skill in the art to form a rim extending about and above the ridges and grooves in these shims because to would prevent or impede the breaking off of sections of the shims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Thomas whose telephone number is 571-272-1502. The examiner can normally be reached on 6:30-4:00 M-THUR.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
